(Updated July 2017)

## **Introduction: What are programme specifications?**

Programme specifications focus on single programmes of study, and outline the intended knowledge, understanding, skills and attributes of a student successfully completing that programme. A programme specification also gives details of teaching and assessment methods as well as linking the programme to the Framework for Higher Education Qualifications and any subsequent professional qualification and career path.

Since the College gained Taught Degree Awarding Powers in January 2017 it validates the programmes taught at Rose Bruford College and as part of the validation process, the College produces approved programme specifications for all the programmes that it offers. On Some programmes, The University of Manchester validates the award for students who have opted to remain on a University degree.

This programme specification forms one part of a set of different types of document about your programme that also includes the prospectus, module specifications and information on the College's website and VLE. The Programme Specification is published on the College's website.

There may be concern that 'specifying' what a student will have learnt at the end of the programme might inhibit innovation within that programme. For this reason it is important not to see programme specifications as 'tick lists'. They offer broad indications of what students might be expected to learn and the types of skills and abilities they might be expected to gain.

### 2. AIMS OF THE PROGRAMME(S)

The Actor Musicianship programme offers practical training for actors who have musical skills. It is taught by the same team as the Acting programme, and shares the same core disciplines and approaches to performance. You will develop the skills of the actor musician through practical classes in movement, voice and approaches to text and character. You will also be developing your existing musical skills for use within a variety of performance contexts. Perhaps most importantly, you will explore how these skills interconnect. Your imagination will be developed to help you create, lead and make music, whilst acting classes will explore the musicality of performance. At the same time you will develop a range of creative and transferable skills that will encourage you to become an independent thinker and motivated artist; an articulate, reflective and enterprising practitioner equipped to succeed in an increasingly competitive profession

The programme aims to:

01.	enable you to develop with a comprehensive grounding in performance as a creative, aesthetic and communicative process who can respond to the rapidly-changing theatre and performance industries
02.	give you a knowledge of theatre, performance and key practitioners in their cultural, social, ethical, political and theoretical contexts
03.	equip you with the essential vocal and physical skills and working vocabularies of the actor musician
04.	develop your musicality and your skills to integrate music into acting and performance
05.	enable you to work collaboratively with practitioners from other theatre disciplines
06.	develop your independent and collaborative research, critical and analytical skills
07.	enable you to become a responsive and reflective practitioner
08.	equip you with a range of specialist vocational and transferable skills to allow you to make an effective, and innovative contribution to the performance industries

### 6. STUDENT INDUCTION, SUPPORT AND DEVELOPMENT

Student induction and support take place at both the programme and College level.

At the programme level:

- You receive a Student Handbook at Registration.
- Each module throughout the programme is introduced with a briefing by the module coordinator.
- You are allocated a personal tutor from the programme team, to provide both academic and pastoral support.
- Peer learning and mentoring, both within a year group and programme and between year groups and programmes, are intrinsic to the programme's learning and teaching strategy.
- You will receive written feedback on all assessment tasks, and will be debriefed in a tutorial following the majority of practical projects, to encourage reflection on practice and to identify future learning goals.

At the College level:

- Welfare advice and counselling is available to all students.
- A Specialist Support and Equality Officer is available to all students (students are contacted at admissions stage and invited to disclose any disabilities).
- Dyslexia support is available.
- You will take part in the College's Personal Development Planning scheme. At four points during the programme, students discuss their personal and professional development with a programme tutor, and plan future action.
- On-going academic support is available through the specialist Academic Support Team, and through on-line support materials.

The programme is designed to be developmental; each successive level represents a distinct phase in your development, and the level Learning outcomes reflect this. At Level 4, induction and study support equip you for degree-level study, while regular tutor contact with core programme staff ensures that you are aided in putting all aspects of your studies into the context of the live performance industry and your developing professional practice.

At Level 5, projects introduce more complexity and demand greater personal responsibility; associated tutorials will both guide you through projects and encourage reflection and contextualisation.

Placements and studies of a variety of industry contexts will enable you to assess the appropriateness of different approaches to given situations.

At Level 6, you are expected to be a self-directed learner; again regular tutorials associated with specific projects will guide you and ensure that your learning is appropriately contextualised.

Through all three levels, Personal Development Planning will frame your learning in individual and professional terms.

### 8. CRITERIA FOR ADMISSION

The criteria for admission is set out on the College website and prospectus.

### 9. PROGRESSION AND ASSESSMENT REGULATIONS

Please refer to Rose Bruford College Undergraduate Academic Regulations.

### 10. MECHANISM FOR PROGRAMME REVISION

The programme is regularly reviewed through the College's annual programme monitoring process. As part of this process, the Programme Committee receives feedback from students, external examiners and academic staff. Recommendations for any revisions to the programme can be discussed as part of this annual monitoring process.

Any proposed modifications by the programme team should be discussed with the Head of School and Director of Learning, Teaching & Curriculum Development. They should then be sent for consideration by the relevant External Examiner. The proposed modifications, together with the completed proforma, will then be sent to the Learning, Quality & Standards Committee.
