*People will always believe the most fabulous tale you can tell. It's the one that they secretly long for. It must be unprovable, impossible, fantastical. To believe it then becomes an act of faith.*

...an act of faith.

Some might say our whole lives are just stories we tell ourselves, narratives we weave out of the chaos of experience. What version of reality do we each chose to believe, and with what act of faith do we submit to that story until we forget there was ever another possible reading?

Thank you to every single person who has worked on bringing this show into being. Your commitment has been staggering and joyful.

And to everyone who has found themselves watching this show - welcome to our world.

I wish you all a life of fabulous, impossible, fantastical stories.
