

#ZACSFIGHT

ZAC, 13, HAS ACUTE
LYMPHOBLASTIC LEUKAEMIA

13-year-old Zac, from Hampshire, was diagnosed with acute lymphoblastic leukaemia (ALL) when he was nine. He was able to be treated and finished his course two years later. Sadly, in November 2016, Zac's leukaemia returned and he now urgently needs a blood stem cell donation from a matching donor.

None of Zac's family are a match for him, so he needs to find a matching

unrelated donor. You could be a matching donor for Zac, or anyone else in need of a blood stem cell donation. If you are between the ages of 17-55, please register to become a potential blood stem cell donor today.

REGISTER NOW

Zac loves to lose himself in fantasy and adventure and is happiest when he has his nose in a good book, comic, movie, or game. He is a big fan of Star Wars, Transformers and Lego - there isn't much he doesn't know them! Zac can also be found playing his guitar and is very handy when it comes to Taekwondo.
