

Pre Prep

Our assembly this week focused on the message of our school being against bullying. We talked about what constitutes bullying behaviour, and how children can keep themselves safe. The children suggested people who could help them, with their teachers, friends and families featuring strongly. We considered how we need to behave to ensure that bullying does not happen.

A plea to ask families to check that name tapes are firmly attached to all items please. Sadly, there are regularly unnamed items that we cannot return to their owners. This is time consuming for staff to manage and distressing for the children who are without their correct uniform.

The front lawn at Southfield is now roped off for the winter. The children have been told not to walk into the roped off area, and not to swing on the rope. We would be grateful if you could support this when supervising your children before and after school.

Lastly, a reminder that registration closes in the morning at 08:30 and children should be in class by this time. Please do not be alarmed if the red front door is closed when you arrive, it will not be locked and just means that we are conserving heat!
