

Sun Awareness

The pupils have enjoyed coming back to school and making the most of our outdoor space in the warm weather. However, we do need to ensure that they are kept safe from the harmful effects of the sun as we are currently experiencing high temperatures. We would appreciate if all pupils could bring their own sunscreen, a hat and a water bottle to school. All items should be clearly labelled. Hats must be worn when they are outdoors and pupils are encouraged to apply sunscreen during all outdoor activities. Additionally, applying a layer of sunscreen before your child's arrival to school would be helpful especially if they are involved in a Games/PE lesson during morning sessions.

Thank you for your support,

The Health Centre Team
