Helping hands in 8N

"I took the dogs out for a walk with a tennis ball to give them a good run. This helped my mum because she is sometimes too busy to take them out and they need a leg stretch. This really helped my mum and she was pleased that a job had been ticked off her list."

I fed the cats.

"I helped my mum make supper."

7N HELPING AROUND THE HOUSE AND BEYOND....

Gemma regularly telephones an elderly neighbour and plays the piano for him.

- "I walked to the shop and got batteries for my parents."

- "I helped a new girl settle into school and feel included."

- "I made dinner for my family instead of my parents making dinner, I made sweet and sour chicken. It was really delicious. It gave my parents time to relax before dinner or finish up work so they could relax at the weekend. They were very grateful. "

5N

"During the lockdown I created and presented a lecture on the Wonders of the World. My Aunt gave me the topic and I got researching on the fun facts about the Wonders of the World. This zoom call was a fantastic way to see each other on a positive note and cheer everyone up! We all got to think about something inspiring and the beautiful world around us. At the end of the presentation we decided to organise a Kahoot quiz and see how much everyone remembered about the Wonders of the World!"

My mum was happy
because I colour-coded
the lego.

I help my dad fill up the bird feeders on the weekend, so the little birds have lots to eat, and it helps them keep warm for the winter.

"I tidied up my wardrobe. I took away t-shirts and trousers of small size and put it in a special box for charity. The rest clothes I put in neat piles."

My sister had trouble putting her song
in rythm, so I practised with her, until
she could put it in rythm.

"I helped
my
nanny/house
keeper chop
some
vegetables
up for our
dinner."

I felt happy helping my sister, and she said
'Thank you Lazzio, you're the best!'

gave them to my neighbour. It
made them feel happy because
they LOVE cakes."

During the lockdown I've been spending lots of time with my family. I've helped to do lots of house work.

I've been very patient writing my homework and work very hard as well. I can be very independent with my homework.

What if
I'm not ready?

I'm not ready

I don't want
to play

What's the
point of trying?

I'm not interested

I would
rather be alone

I'm going to quit

I've learned
nothing

What's the point?
