

Toys, Pokemon Cards and Wearable Technology

Please could all children leave their toys, Pokémon cards and wearable technology at home.

Personal toys and trading cards are precious and sought-after items. Broken or missing items often leads to upset and distress amongst pupils.

It is school policy that fitness trackers such as Fitbits and any form of wearable technology are not allowed in school. These items are expensive to replace, and it is extremely hard for staff to know whether individual watches have internet connectivity. Analogue or basic digital watches only should be worn in school.
